provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically and apply tools and techniques creatively in order to respond decisively within a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred; A shift toward greater consideration of services marketing as more companies move away from manufacturing; A shift from developed markets to emerging markets with

Annotation "19 Urban Questions: Teaching in the City, the definitive overview of urban education, is provocative in style and rich in detail. Emphasizing the complexity of urban education, Steinberg, Kincheloe, and the authors ask direct questions about what urban teachers need to know. Their answers are guaranteed to generate both classroom discussion and discourse in the field for years to come. This is a volume that should be used in every school of education. Important topics include: difference in urban education; motives for teaching in city settings; understanding and dealing with drop-outs; the role of counseling in urban schools; identifying resistance in urban settings; gangs and gang membership;

evaluation and assessment; unique issues relating to disabilities; bilingual education; unique issues in urban literacy; urban students and the writing process; technology in urban classrooms; the value of teaching science in urban settings; the role of aesthetics in city schools; health risks among city students; understanding the urban family.

Olives, bread, meat and wine: it is deceptively easy to evoke ancient Greece and Rome through a few items of food and drink. But how were their tastes different from ours? How did they understand the sense of taste itself, in relation to their own bodies and to other modes of sensory experience? This volume, the first of its kind to explore the ancient sense of taste, draws on the literature,

philosophy, history and archaeology of Greco-Roman antiquity to provide answers to these central questions. By surveying and probing the literary and material remains from the Archaic period to late antiquity, contributors investigate the cultural and intellectual development towards attitudes and theories about taste. These specially commissioned chapters also open a window onto ancient thinking about perception and the body. Importantly, these authors go beyond exploring the functional significance of taste to uncover its value and meaning in the actions, thoughts and words of the Greeks and Romans. Taste and the Ancient Senses presents a full range of interpretative approaches to the gustatory sense, and provides an indispensable resource for students and scholars of

Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.

From marvelous galleries of the Big Dipper, Little Dipper and other constellations to in-depth looks at Mercury, Venus, Earth, Mars, Saturn, Uranus, and Neptune and to the moons of Jupiter, comets, and galaxies--not to mention entries on rockets and spacecraft--DK's Pocket Genius: Space opens up the vast and
