Katherine Esau was a botanist who grew up in Russia and Germany before immigrating to the U.S. in 1922. During her time in the U.S., Esau worked at a company studying sugar beet reactions to a virus before going to school at the University of California, Davis to obtain her doctorate. Esau stayed at UCD throughout her career where she was a pioneer in the study of plant anatomy.

Anatomy of Seed Plants. #OTD On this day in 1997, the great plant anatomist extraordinaire Katherine Esau died. Her early work was dedicated to forming the curly top virus in beets and other plants. I found an early newspaper account of her work in the Woodland Daily Democrat from 1928; the headline was "Girl to Conduct Beet Experiments." She was best known for her research on the effects of viruses on plant tissues.
