Publisher Description

ON COURSE: STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE, STUDY SKILLS PLUS EDITION was created for educators who would like to promote student growth and self-awareness, while providing more extensive instruction in study skills. Downing's powerful guided journal entries have been retained from the original ON COURSE text to encourage students to explore essential life skills such as personal responsibility, self-motivation, interdependence, and self-esteem. The Study Skills Plus Edition engages students in a learner-centered construction of study skills knowledge, and gives students practice in applying empowerment strategies. The 2nd edition highlights the very process of learning how to solve academic challenges with improved study skills. Students engage in critical and creative problem solving that will enable them to achieve greater success in all parts of their lives. The 2nd edition also features expanded coverage of diversity, emphasizing

This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

With the most coverage of the writing process and the most professional readings, STEPS TO WRITING WELL WITH ADDITIONAL READINGS has helped thousands of students learn to write effective academic essays. Jean Wyrick ' s text is known for its student-friendly, approachable tone and the way it presents rhetorical strategies for composing essays in an easy-to-follow progression of useful lessons and activities. With thoughtful instruction, almost 70 student and professional readings, and a wealth of short and long assignments, the text gives students the models and practice they need to write well-constructed essays with confidence. This 10th edition features useful new visual learning aids; many new student samples, professional readings, and advertisements; new essay assignments that promote using sources and multiple rhetorical strategies; a new organization for expository writing assignments and research; and updated discussions of drafting and reading multimodal texts. Each student text is packaged with a free Cengage Essential Reference Card to the MLA HANDBOOK, Eighth Edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Using his signature, conversational writing style and straightforward presentation, Neil J. Salkind ' s best-selling Tests & Measurement for People Who (Think They) Hate Tests & Measurement guides readers through an overview of categories of tests, the design of tests, the use of tests, and some of the basic social, political, and legal issues that the process of testing involves. The Third Edition includes a new chapter on item response theory, new sections on neuropsychological testing, new cartoons, and additional end-of-chapter exercises. Free online resources accompany the text to make teaching easier and provide students with the practice tools they need to master the material.
