From the wicked imagination of award-winning writer Warren Ellis comes DEAD PIG COLLECTOR, a love story with a classic Ellis twist. So while it might be a love story, it's also about killing people and disposing of their bodies in the most efficient manner possible. DEAD PIG COLLECTOR introduces readers to Mister Sun, a very proficient businessman whose trade is the murder and spotless removal of human beings. Like any businessman, he knows each transaction is only as good as his client - and today's client, in Los Angeles, has turned out to be so dangerously stupid that Mister Sun's work and life are now in jeopardy...

Burned-out private dick Michael McGill needs to jump-start his career. What he gets instead is a cattle prod to the crotch. The president's heroin-addicted chief of staff wants McGill to find the Constitution—the real one the Founding Fathers secretly devised for the time of gravest crisis. And with God, civility, and Mom's homemade apple pie already dead or dying, that time is now. But McGill has a talent for stumbling into every imaginable depravity—and this case is driving him even deeper into America's darkest, dankest underbelly, toward obscenities that boggle even his mind.

A smart, tight, provocative techno-thriller straight out of the very near future—by an iconic visionary writer Some people call it "abyss gaze." Gaze into the abyss all day and the abyss will gaze into you. There are two types of people who think professionally about the future: foresight strategists are civil futurists who think about geo-engineering and smart cities and ways to evade Our Coming Doom; strategic forecasters are spook futurists, who think about geopolitical upheaval and drone warfare and ways to prepare clients for Our Coming Doom. The former are paid by nonprofits and charities, the latter by global security groups and corporate think tanks. For both types, if you're good at it, and you spend your days and nights doing it, then it's something you can't do for long. Depression sets in. Mental illness festers. And if the "abyss gaze" takes hold there's only one place to recover: Normal Head, in the wilds of Oregon, within the secure perimeter of an experimental forest. When Adam Dearden, a foresight strategist, arrives at Normal Head, he is desperate to unplug and be immersed in sylvan silence. But then a patient goes missing from his locked bedroom, leaving nothing but a pile of insects in his wake. A staff investigation ensues; surveillance becomes total. As the mystery of the disappeared man unravels in Warren Ellis's Normal, Dearden uncovers a conspiracy that calls into question the core principles of how and why we think about the future—and the past, and the now. The ebook edition also includes four

Year Five: Shut It Down. Things look bad for outlaw journalist Spider Jerusalem. He's lost his job and everything he owns. He's been diagnosed with an untreatable and almost certainly terminal brain infection. And he's being hunted by professional assassins dispatched by a vengeful and implacable president of the United States of America. But Spider's spirit is buoyant, and his heart is glad. Why? Because he and his filthy assistants have picked up the trail of corruption and deceit that the president has left behind. Because all of those murderous loose ends are finally coming together. And because Spider has the truth on his side and nothing left to lose. In the end, only one of these battle-scarred beasts will be left standing. But will either of them actually walk away from their epochal showdown alive? Acclaimed writer Warren Ellis (Castlevania, The Wild Storm) and artist Darick Robertson (The Boys, Happy!) file their final dispatch from a disturbingly familiar future in Transmetropolitan Book Five, collecting issues #49-60 of their cauterizingly caustic series.

This second PLANETARY collection focuses on the team's mysterious benefactor, the "Fourth Man." After paying their final respects to a British occultist with ties to their group, Elijah Snow, Jakita Wagner, and The Drummer continue their super-human archeological studies as they visit a hidden government compound full of radioactive human guinea pigs, discover a fictional construct that has been made real and learn of a malevolent group known simply as "The Four." As these investigations take place, Elijah begins to learn some truths about both the Fourth Man's identity as well as his own hidden past. Featuring an introduction by Buffy The Vampire Slayer creator, Joss Whedon! Collects 7-12.

Working as an investigative reporter for the newspaper The Word, Spider Jerusalem attacks the injustices of his surreal 21st-century surroundings. Spider ventures into the dangerous Angels 8 district, home of the Transients—humans who have decided to become aliens through cosmetic surgery. And don't miss Spider's confrontation with the president of the United States...in a men's room. Plus, when Spider tries to shed light on the atrocities of these institutions, he finds himself fleeing a group of hit men/kidnappers in possession of his ex-wife's frozen head. Collects TRANSMETROPOLITAN #1-12!
