Raven's 8 th edition of Environmentoffers more detailed content than the Visualizing text for a better understanding and integration of the core environmental systems and to view and analyze the role those systems play. Shorter, but still comprehensive coverage focuses on ethical decision making and key local environmental science issues, requiring readers to think critically about the course material outside of the classroom.

Raven, Hassenzahl, Berg: Environment, 8th Edition

This text is an unbound, binder-ready edition. The 8th Edition of Environment builds on the previous comprehensive, systems-based environmental science issue with more in-depth information on systems approach, which emphasizes the interconnected nature of environmental science throughout the text. The book is even more reader-friendly integrated learning system designed to help move from general concepts to specific applications and continues to focus on currency.
