Millions of young people—and increasingly some not-so-young people—now work as interns. They famously shuttle coffee in a thousand magazine offices, legislative backrooms, and Hollywood studios, but they also deliver aid in Afghanistan, map the human genome, and pick up garbage. Intern Nation is the first exposé of the exploitative world of internships. In this witty, astonishing, and serious investigative work, Ross Perlin profiles fellow interns, talks to academics and professionals about what unleashed this phenomenon, and explains why the intern boom is perverting workplace practices around the world. The hardcover publication of this book precipitated a torrent of media coverage in the US and UK, and Perlin has added an entirely new afterword describing the growing focus on this woefully underreported story. Insightful and humorous, Intern Nation will transform the way we think about the culture of work.

We all define ourselves by our profession - at least to some extent. But what if our job was demeaning, poorly paid, and tedious? Cracking open Britain's divisions - immigrant/British, North/South, urban/rural, working class/middle class, leave/remain - journalist James Bloodworth spends six months living and working across Britain, taking on the country's worst jobs. He lives on the meagre proceeds and discovers the anxieties and hopes of those he encounters, including working-class British, young students striving to make ends meet, and Eastern European immigrants. Reminiscent of Orwell's Road to Wigan Pier, this is a fascinating window onto a world that Britain's London-centric media rarely visits. From the Staffordshire Amazon warehouse to the taxi-cabs of Uber, Bloodworth uncovers horrifying employment practices and shows how traditional working-class communities have been decimated by the move to soulless service jobs with no security, advancement or satisfaction. But this is more than an expose of unscrupulous employers; this is a gripping examination of post-Brexit Britain, a divided nation which needs to understand the true reality of how other people live and work, before it can heal.

Criminal Justice Internships: Theory into Practice, 9th Edition, guides the student, instructor, and internship site supervisor through the entire internship process, offering advice and information for use at the internship site as well as for pre-planning and assessment activities. With more and more programs offering or requiring internships as a graduation requirement, McBride offers students a means of enhancing their credentials and gaining a foothold in a competitive job market. Students learn basics such as choosing an internship site at either a public agency or a private firm, résumé writing techniques, effective use of social networks, interviewing skills, and the importance of setting and developing goals and assessing progress. The book also serves as a reference tool for professors and supervisory personnel who assist and supervise students during their internships. Divided into four sections—Pre-internship Considerations, Professional Concerns, Role of the Organization, and Assessment and Career Planning—this book offers resources to enrich the experience of the student and lay the foundation for future professional success. Suitable for all Criminal Justice, Justice Studies, and Pre-law undergraduate programs, Criminal Justice Internships is useful as well in Social Sciences programs with a service-learning component.

During a chance night shift on the cops beat, newsroom assistant Madeleine Harrington stumbles on the corruption story of a lifetime – a plot that would reshape the entire city. She teams up with her dad, a downtrodden columnist at the paper, to unearth the mystery. The muckrakers find the plot goes deeper – and contains more skeletons among the city's powerbrokers – than they imagined.

God's Council is the story of eleven Creators, the original forms of life created by the Eternal Energy worshipped as God . After many galecs , these Creators created humans, fairies and many more. The Four Auins is the first book in the God's Council series about the birth of the four brothers. The story begins galecs after Vernakula created humans and when Irunkula, the youngest of the Kulas decides to create fairies. However, before the fairies were created, the Kulas are attacked by an army of crimson wexs . Though the Kulas win, their portal to travel across the Omasian Universe is sealed and after the war, Orunkula and Irunkula are never the same again.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This groundbreaking book examines the growing phenomenon of internships and the policy issues they raise, during a time when internships or traineeships have become an important way of transitioning from education into paid work.

"As Dustin Abnet shows, the robot-whether automaton, Mechanical Turk, cyborg, or iPhone, whether humanized machine or mechanized human being-has long been a fraught embodiment of human fears. Abnet investigates, moreover, how the discourse of the robot has reinforced social and economic inequalities as well as fantasies of social control. "Robots" as a trope are not necessarily mechanical but are rather embodiments of quasi humanity, exhibiting a mix of human and nonhuman characteristics. Such figures are troubling to dominant discourses, which cannot easily assimilate them or identify salient boundaries. The robot lurks beneath the fears that fracture society"--
