Practical and applications (rather than theory) based, this book focuses on the needs of individuals interested in starting a small business -- primarily those organized as sole proprietorships, partnerships, or small Subchapter S corporations. It emphasizes small businesses exclusively -- with specific examples of the non-corporate market. The book is mathematically accessible to those with limited mathematical background (formulas are explained rather than derived, and only basic math is used in illustrations and solutions). A full case study is referred to throughout narrative and an accompanying CD-ROM includes all tables in Excel format.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Through the presentation of the Ten Fundamental Principles of Personal Finance, this text empowers students with the knowledge they need to successfully make and carry out a plan for their own financial future.

Encourage students to become financially responsible with Personal Finance for grades 5 and up! This 80-page workbook features eight chapters of valuable financial information. It includes reproducibles and activities that focus on setting income goals, different types of bank accounts, insurance, investments, and taxes. For students, learning personal finance is an investment in the future!
