The founders of 37Signals assess the surging trend of working from home while explaining its challenges and benefits, posing compelling arguments about why businesses should promote work-from-home models and how remote work setups can be productively accomplished.

The classic guide to working from home and why we should embrace a virtual office, from the bestselling authors of Rework “ A paradigm-smashing, compulsively readable case for a radically remote workplace. ” —Susan Cain, New York Times bestselling author of Quiet Does working from home—or anywhere else but the office—make sense? In Remote, Jason Fried and David Heinemeier Hansson, the founders of Basecamp, bring new insight to the hotly debated argument. While providing a complete overview of remote work ' s challenges, Jason and David persuasively argue that, often, the advantages of working “ off-site ” far outweigh the drawbacks. In the past decade, the “ under one roof ” model of conducting work has been steadily declining, owing to technology that is rapidly creating virtual workspaces. Today the new paradigm is “ move work to the workers, rather than workers to the workplace. ” Companies see advantages in the way remote work increases their talent pool, reduces turnover, lessens their real estate footprint, and improves their ability to conduct business across multiple time zones. But what about the workers? Jason and David point out that remote work means working at the best job (not just one that is nearby) and achieving a harmonious work-life balance while increasing productivity. And those are just some of the perks to be gained from leaving the office behind. Remote reveals a multitude of other benefits, along with in-the-trenches tips for easing your way out of the office door where you control how your workday will unfold. Whether you ' re a manager fretting over how to manage workers who “ want out ” or a worker who wants to achieve a lifestyle upgrade while still being a top performer professionally, this book is your indispensable guide.

For too long our lives have been dominated by the ‘ under one roof ’ Industrial Revolution model of work. That era is now over. There is no longer a reason for the daily roll call, of the need to be seen with your butt on your seat in the office. The technology to work remotely and to avoid the daily grind of commuting and meetings has finally come of age, and bestselling authors Jason Fried and David Heinemeier Hansson are the masters of making it work at tech company 37signals. Remote working is the future – and it is rushing towards us. Remote: Office Not Required combines eye-opening ideas with entertaining narrative. It will convince you that working remotely increases productivity and innovation, and it will also teach you how to get it right – whether you are a manager, working solo or one of a team. Chapters include: ‘ Talent isn ’ t bound by the hubs ’ , ‘ It ’ s the technology, stupid ’ , ‘ When to type, when to talk ’ , ‘ Stop managing the chairs ’ and ‘ The virtual water cooler ’ . Brilliantly simple and refreshingly illuminating this is a call to action to end the tyranny of being shackled to the office.

Jason Fried and David Heinemeier Hansson, the authors of the New York Times bestseller Rework, are back with a manifesto to combat all your modern workplace worries and fears.

"Rework" shows you a better, faster, easier way to succeed in business. You'll learn how to be more productive, how to get exposure without breaking the bank, and tons more counterintuitive ideas that will inspire and provoke you.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover all the good reasons to switch to telework and how to adopt it, whether you are an employee or an employer. In particular, you will learn that : employees are more productive when working remotely than in an office; technology today makes it possible to collaborate with people all over the world; teleworking offers freedom and therefore a better balance for workers; to embrace teleworking, traditional management must be overhauled. Teleworking is the business trend of the last decade. Working at a distance will soon become the norm, as today's technologies allow us to do so and office work is reaching its limits. Even if many companies still refuse to do so, this summary will convince you to adopt a new way of working, and therefore a different way of life. Dare to take the plunge! You will be freer and happier. *Buy now the summary of this book for the modest price of a cup of coffee!

A behind-the-scenes look at the firm behind WordPress.com and the unique work culture that contributes to its phenomenal success 50 million websites, or twenty percent of the entire web, use WordPress software. The force behind WordPress.com is a convention-defying company called Automattic, Inc., whose 120 employees work from anywhere in the world they wish, barely use email, and launch improvements to their products dozens of times a day. With a fraction of the resources of Google, Amazon, or Facebook, they have a similar impact on the future of the Internet. How is this possible? What's different about how they work, and what can other companies learn from their methods? To find out, former Microsoft veteran Scott Berkun worked as a manager at WordPress.com, leading a team of young programmers developing new ideas. The Year Without Pants shares the secrets of WordPress.com's phenomenal success from the inside. Berkun's story reveals insights on creativity, productivity, and leadership from the kind of workplace that might be in everyone's future. Offers a fast-paced and entertaining insider's account of how an amazing, powerful organization achieves impressive results Includes vital lessons about work culture and managing creativity Written by author and popular blogger Scott Berkun (scottberkun.com) The Year Witsout Pants shares what every organization can learn from the world-changing ideas for the future of work at the heart of Automattic's success.

The future isn ' t about where we will work, but how. For years we have struggled to balance work and life, with most of us feeling overwhelmed and burned out because our relationship to work is broken. This “ isn't just a book about remote work. It's a book that helps us imagine a future where our lives—at the office and home—are happier, more productive, and genuinely meaningful ” (Charles Duhigg, best-selling author of The Power of Habit). Out of Office is a book for every office worker – from employees to managers – currently facing the decision about whether, and how, to return to the office. The past two years have shown us that there may be a new path forward, one that doesn ' t involve hellish daily commutes and the demands of jam-packed work schedules that no longer make sense. But how can we realize that future in a way that benefits workers and companies alike? Based on groundbreaking reporting and interviews with workers and managers around the world, Out of Office illuminates the key values and questions that should be driving this conversation: trust, fairness, flexibility, inclusive workplaces, equity, and work-life balance. Above all, they argue that companies need to listen to their employees – and that this will promote, rather than impede, productivity and profitability. As a society, we have talked for decades about flexible work arrangements; this book makes clear that we are at an inflection point where this is actually possible for many employees and their companies. Out of Office is about so much more than zoom meetings and hybrid schedules: it aims to reshape our entire relationship to the office.

Getting Real details the business, design, programming, and marketing principles of 37signals. The book is packed with keep-it-simple insights, contrarian points of view, and unconventional approaches to software design. This is not a technical book or a design tutorial, it's a book of ideas. Anyone working on a web app - including entrepreneurs, designers, programmers, executives, or marketers - will find value and inspiration in this book. 37signals used the Getting Real process to launch five successful web-based applications (Basecamp, Campfire, Backpack, Writeboard, Ta-da List), and Ruby on Rails, an open-source web application framework, in just two years with no outside funding, no debt, and only 7 people (distributed across 7 time zones). Over 500,000 people around the world use these applications to get things done. Now you can find out how they did it and how you can do it too. It's not as hard as you think if you Get Real.
