~~Fabric not feeding. If your machine has drop feed, check that the feed has not been accidentally lowered. If it has, raise the feed to ensure the fabric will move forward. If you have a mechanical machine, check that the foot is lowered before sewing. Computerised machines will remind you to do this.~~

~~Common Sewing Machine Problems | Brother~~

~~Some brother printers will not allow you to print a bitmap logo along with normal text; you have to print one or the other. Fortunately there are two workarounds for this: 1. Use the Anchor “As Character” setting for the images. 2. Export to PDF and print from the PDF document. “Printer defaulting to fax instead of print?” General Brother Printers~~

~~Common Brother Printer Problems (and How to Fix Them)~~

~~Remove the upper thread and any loose threads. Raise the pressure foot, raise the needle to its highest position and rethread the machine. Remove the bobbin and bobbin case to clean any lint or loose threads. Install the bobbin case so that the projection on it aligns with the spring.~~

~~Brother Sewing Machine Repair Questions, Solutions and ...~~

~~Some common points to check are: Check that the bobbin winder shaft is not pushed to the right if it is then push it to the left. Check that your machine is threaded correctly ensuring the threading line on the hand wheel is at the top position, this will put the needle into the correct position for threading.~~
