"This book is based upon the belief that the movements of prices on the exchanges are dependent to a very large degree

on the mental attitude of the investing and trading public ... [and] is intended chiefly as a practical help to that considerable part of the community which is interested, directly or indirectly, in the markets.--p. [3].

The Lifecycle Trade provides unique insight into the behavior of Super Growth Stocks starting with their initial public offerings (IPOs). Using extensive proprietary research, this practical guide contains never-before-published findings that provide revelatory statistics that can help you learn how to find big, winning stocks early. Full color charts and graphics for easy reference. "Which of the following statements are true? 1. 20% of IPOs gain 100% or more within their first year. 2. Over 90% of IPOs eventually trade below their first day low. They are both true! IPOs provide great opportunities, but they are also replete with severe drawdowns that can leave traders with net losses, even for those stocks that are eventual big winners. This succinct volume dispels some of the misconceptions about IPOs and should serve as a useful aid in navigating the treacherous waters of IPO trading and in formulating your own trading plan for these unique stocks." -Jack Schwager, Market Wizards, The New Market Wizards, Stock Market Wizards, Hedge Fund Market Wizards, The Little Book of Market Wizards, Market Sense and Nonsense, Schwager on Futures, Getting Started in Technical Analysis, Complete Guide to Mastering the Markets "As a career futures and forex trader, I have always been intrigued by growth stocks, but never developed the skill to identify the 10X or 20X winners. The Lifecycle Trade is the first book I have read that could help an equities trader gain that skill in a methodical and systematic way. Kudos to the authors for putting a bookend to the earlier works by Peter Lynch." -Peter Brandt, Diary of a Professional Commodity Trader, Trading Commodity Futures with Classical Chart Patterns "A fabulous read for anyone wanting to get an understanding of how to jump on a large, winning IPO and avoid getting ruined by Wall Street's pump-and-dump scheme, which can ruin the average investor." -Dan Zanger, Chartpattern.com, Momentum Masters "An important idea conveyed by Boboch, Donnelly, Krull, and Daill is that stocks follow a Lifecycle Pattern from IPO-infancy to maturation. Understanding where a stock is in its lifecycle provides important clues as to how to trade and invest." -Brett H. Steenbarger, Ph.D. Trading Psychology 2.0, The Daily Trading Coach, The Psychology of Trading, Enhancing Trader Performance, A Trader's Guide to Self-Discipline "After thirty years of managing money, this book has opened my eyes to new ideas and made me realize that there is always more to learn." -James Roppel, Founder and Managing Member, Roppel Capital Management "As a long-time growth stock advisor, I value research that is based in fact and proven through history to give you an edge. That's just what The Lifecycle Trade does. The team has performed exhaustive studies on how IPOs act after they come public, and they identify easy-to-understand patterns and guidelines to take advantage of that action. It's an eye-opener and sure to help any investor who wants in on new, exciting growth situations." -Mike Cintolo, Chief Analyst, Cabot Growth Investor and Cabot Top Ten Trader "The Lifecycle Trade is a great research tool for stock traders to add to their knowledge toolkit. One can always learn more about trading and the markets, and this book offers valuable guidelines. The selling points and rules are especially insightful since selling is usually the greatest challenge to the trader. I would suggest everyone read The Lifecycle Trade and expand their market research knowledge." -John Boik, Lessons From the Greatest Stock Traders of All Time, How Legendary Traders Made Millions, Monster Stocks

The trading strategies of legends Jesse Livermore, Bernard Baruch, Gerald Loeb, and more provide ways to triumph in the market Today's bookshelves are so laden with Johnny-come-lately experts, eager to sell their knowledge to any and all, that it's sometimes hard for traders to know which way to turn or whom to trust. Lessons from the Greatest Stock Traders of All Time makes the choice simple, examining the careers of five traders--Jesse Livermore, Bernard Baruch, Gerald Loeb, Nicolas Darvas, and Bill O'Neil--who, more than any others over the past century, demonstrated tremendous success at conquering Wall Street. This technique-filled book presents numerous ways in which the timeless strategies of these investing icons can be used to tame today's high-speed, unforgiving marketplaces. Comparing and contrasting the successes--and occasional failures--of these five giants of finance, it reveals: What Jesse Livermore did to correctly call every market break between 1917 and 1940 How Bill O'Neil stuck to basics to create his famously effective CANSLIM system The strategies Nicolas Darvas used to become a self-made millionaire several times over
